

JUNIOR SOFTWARE DEVELOPER

UI/UX DESIGN | ANALYTICAL | DETAIL ORIENTED

- Foundational understanding of algorithms, software design patterns, and Software Requirements Engineering (SRS) documentation
- Proven capacity to build full-stack web solutions and deliver quality results in fast-paced academic environments through completion of multiple successful projects
- Experience with database design, normalizing schemas, and writing relational queries (Oracle SQL)
- Knowledgeable in SDLC, Agile practices, UI/UX design, QA testing, and Unix/Linux shell scripting

TECHNICAL SKILLS

Programming:	JavaScript, C#, Python, SQL, HTML/CSS, Unix Shell Scripting
Database Management:	Oracle SQL, Oracle SQL Developer, Relational Schema Design, Data Normalization
Operating Systems:	Unix, Linux, Windows
Web & Software Development:	Web Interface Design, Client-Side Web Development (AJAX, Fetch API), Asynchronous JavaScript, Responsive UI/UX Design
Development Tools:	Visual Studio Code, Visual Studio, Git, GitHub
Software Engineering & Design:	Software Requirements Specification (SRS), System Modeling (Use Cases, Swimlane Diagrams), UI/UX Wireframing (Figma)
Other Tools:	MS Office (Word, Excel, PowerPoint)

EDUCATION

Software Engineering Technology (Co-op) Advanced Diploma	Sept. 2025 - Present
Centennial College, Toronto, ON	

Key Courses: Programming (Python) | Database Concepts (SQL) | Unix/Linux OS (Bash) | Software Requirements Engineering (SRS) | C# Programming | Web Interface Design (HTML, CSS) | Web Application Development | Java Programming | Software Engineering Fundamentals

SELECT ACADEMIC PROJECTS

Web Interface Design - CSS, HTML

- Designed a responsive website for pet owners to book rooms for pets using CSS and HTML
- Created a scrolling image gallery and contact form; applied responsive design for web and mobile

Software Requirements Specification Document - Drop in at Cent

- Collaborated with a group of colleagues to write a comprehensive Software Requirements Specification for an interactive activity drop-in application
- Defined functional and non-functional requirements, use case diagrams, use case formal descriptions, swim lane diagrams, and other analysis models

Online Grocery Shop Database - SQL

- Engineered a normalized relational database schema to support e-commerce grocery operations
- Developed and executed complex Oracle SQL queries, data constraints, and relational mappings

COMMUNITY ENGAGEMENT

Centennial Hacks (Hackathon Challenge)	August 2026
---	-------------

IEEE Centennial College Student Branch, Scarborough, ON

- Designed and built EcoKiosk using HTML, CSS, JavaScript, and Fetch API, helping students find study rooms without mobile devices to reduce paper waste.
- Coordinated user interface design and layout optimization, improving user accessibility & navigation

Nevan Newaz

Ajax, ON

[LinkedIn](#) | [GitHub](#)

289-928-3224 | nnewaz@my.centennialcollege.ca

- Collaborated in a fast-paced team environment, applying structured problem-solving and rapid prototyping to deliver a functional project under deadline

WORK EXPERIENCE

Sales Associate

Feb 2025 - June 2025

Ren's Pets, Ajax, ON

- Applied communication skills to deliver engaging, full-service customer service by actively listening to customer needs and answering product inquiries
- Demonstrated attention-to-detail to surpass visual merchandising standards across floor displays, driving product engagement and maintaining 90%+ stock availability
- Collaborated with other team members to discuss and resolve issues pertaining to process, workflows, stocking and customer service related inquiries
